

## Distrust in CIA Charged

Your recent story, "CIA Still Failing to Get Vital Facts from Inside Cuba," was so true but it failed to answer one question: Why? Escapees from Castro come to Florida day after day, student groups skirt Cuban shores, private intelligence agencies have recited "vital facts" for months to everyone who would listen.

All one need do is to question a few Cuban refugees to learn the anti-Communists do not trust our CIA. They have reason to believe our espionage agency is to blame for much of what they have suffered.

They know that much information the CIA has been given never is reported to the White House or to the proper people in Congress and the state department. Plenty of Cuban refugees in Chicago are outspoken in their dislike for our costly "intelligence" agency.
